

QUALITY POLICY

Birinci aims to be a leading company in its sector, which perceives the quality expectations of its customers and continuously improves all its products and processes in the value chain accordingly.

For this purpose,

- To analyze the expectations and needs of our customers on time and properly and to offer solutions that will meet them,
- To deliver the product to the customer at the desired quality on time, and to ensure absolute customer satisfaction,
- With the awareness of the importance of intellectual capital, to provide training support and achieve their participation to ensure the development and motivation of our employees,
- To provide an environment where our employees can work in peace and security,
- To establish long-term cooperation with our suppliers based on mutual trust, and to develop and grow with them,
- To keep our product range at competitive levels with new processes by following the developing technologies,
- To determine the approaches that will enhance our performance by reviewing our processes and to reach company and department targets by supporting teamwork,
- To raise the efficiency of all our processes to a level that can compete at the international level, in line with the continuous improvement approach,
- To act with the awareness of social responsibility, and to use resources most effectively, and be respectful to the environment,

We accept the abovementioned principles as a quality policy. We work with all our strengths to be a model company with our leadership in terms of quality in the Forging, Machining, and Assembly sector by managing our processes with the Quality Management System.

Vice-Chairman of Board

Yakup BİRİNCİ
